

PRIVACY AND YOU: ONLINE

Your online privacy is always important no matter who you are.
Follow these simple tips to stay safe online:

PRIVACY SETTINGS:

Set privacy and security settings on websites to limit who you share information with, especially when using social media.

LOCATION SETTINGS:

Do you want your location known? If not, turn it off in your privacy settings and delete apps that won't work without your location settings activated.

WHEN IN DOUBT, THROW IT OUT:

If you don't know who the email is from, don't open the attachments, click on links or reply to messages. If it looks suspicious, it probably is.

BE AWARE WHEN SHOPPING ONLINE.

Use one credit card or a secure payment option. Look for the symbol and a website address with  This means the site is more secure.

KEEP SECURITY SOFTWARE CURRENT:

Have the latest security software installed and kept up to date. This is the best defence against viruses, malware and other online threats.

MAKE PASSWORDS LONG AND STRONG:

Combine capital and lowercase letters with numbers and symbols to create a more secure password. Don't automatically select the "remember my password" option.

PRIVACY MANNERS:

Ask before you tag or post pictures of friends or family on social media.
Share responsibly!
