Government information and AI

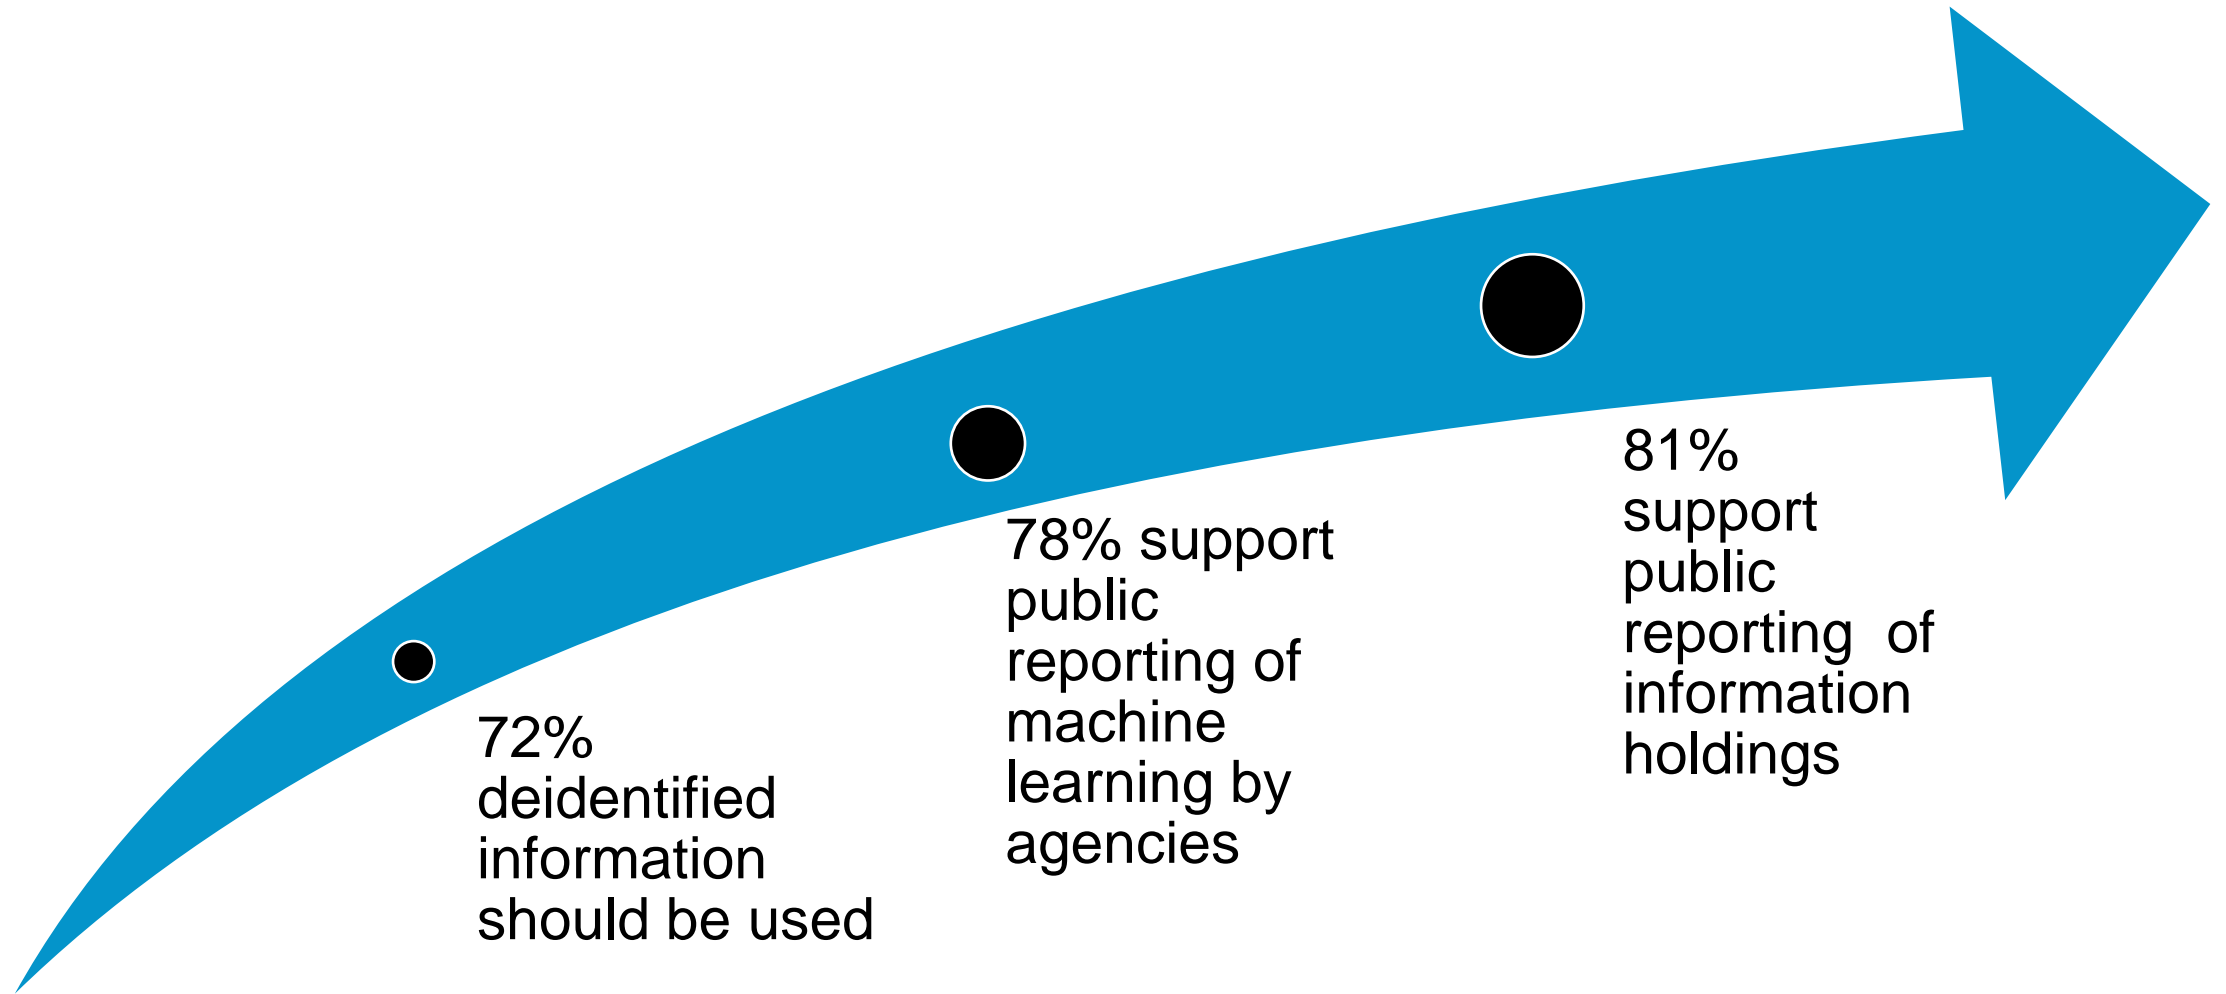

- government information
- citizen access rights
- reviewability

The 2021 government information landscape

Characterised by three immutable features:

1. digital government and data application
2. increasing partnerships and outsourcing arrangements
3. novel models of government that transcend traditional sectoral arrangements.

2020 NSW community attitudes to data sharing

Securing the right to access information and the public interest - legal developments & adequacy

- Legislation throughout Australia
- O'Brien v Dept Communities and Justice
- *Calderwood v Department of Planning, Industry and Environment; Calderwood v Campbelltown City Council; Department of Planning, Industry & Environment v City of Ryde* [2020] NSWCATAD 200

**The three
fundamental
questions to
preserve
information and
secure access**

- 1. who holds the information?**
- 2. how access is provided?**
- 3. in what form can access be provided?**
