## Privacy and Data Governance – current issues, risks and future initiatives

Presentation to RIMPA Sydney Roadshow 20 June 2023

Samantha Gavel
Privacy Commissioner

# About the Privacy Commissioner

#### The NSW Privacy Commissioner:

- is an independent voice on privacy in NSW
- provides advice to the NSW Parliament, the NSW Attorney General, and the Minister for Customer Service and Digital Government, Minister for Emergency Services, and Minister for Youth Justice
- oversees NSW laws that protect personal and health information under PPIP & HRIP Acts

#### New technologies mean:

- Easier & faster collection of data
- Large scale collection
- Digital innovation
- New privacy and cyber security challenges

#### **Development of a digital government:**

- New digital services
- Increased data sharing
- Data analytics and data matching
- Machine learning
- Al and Internet of Things technology

#### **NSW** examples:

- Digital Drivers Licence
- Mobile Phone Detection Cameras

### COVID-19 and Privacy

#### Consideration of privacy issues in NSW:

- Sharing and use of data to inform the State Government's pandemic response and provide information to the public
- Development of COVID check-in tool by the NSW Department of Customer Service
- Data breaches resulting from increased malicious cyber security activity during the pandemic
- Collection of Vaccination Information

- The Optus and Medibank cyber breaches have potentially exposed the personal information of millions of Australians
- Lessons from these breaches include the need to:
  - Minimise the collection of personal information
  - Retain personal information only as long as it is needed
  - Dispose of personal information securely when no longer needed
- Importance of robust data breach response plan and stakeholder communication plan
- Challenges and risks in obtaining proof of identity and holding identity documents
- The significant cost of data breaches

# **Understanding** the Cost of Cyber Breaches

- Service NSW Data Breach (March 2020)
- \$30 million
- Optus Data Breach (September 2022)
- \$140 million
- Class action commenced in April 2023
- Medibank Private Data Breach (October 2022)
- Up to \$1 billion in litigation costs
- Several class actions commenced
- Latitude Financial Data Breach (March 2023)
- Forecasting losses of millions of dollars due to the breach

#### Retention and Security of Personal Information

#### Privacy and Personal Information Protection Act 1998 (NSW)

- S 12: A public sector agency that holds personal information must ensure -
  - (a) that the **information is kept for no longer than is necessary** for the purposes for which the information may lawfully be used, and
  - (b) that the **information is disposed of securely** and in accordance with any requirements for the retention and disposal of personal information, and
  - (c) that the information is protected, by taking such security safeguards as are reasonable in the circumstances, against loss, unauthorised access, use, modification or disclosure, and against all other misuse.

#### **ACSC Annual Cyber Threat Report 2022**

- An increase in financial losses due to Business Email Compromise to over \$98 million; an average loss of \$64,000 per report.
- A rise in the average cost per cybercrime report to over \$39,000 for small business, \$88,000 for medium business, and over \$62,000 for large business; an average increase of 14 per cent.
- A 25 per cent increase in the number of publicly reported software
   vulnerabilities (Common Vulnerabilities and Exposures CVEs) worldwide.
- Over 76,000 cybercrime reports; an increase of 13 per cent from the previous financial year.

#### **Keeping data secure**

- A whole of organisation data governance framework is required.
- Privacy protective organisational culture, led from the top down.
- Understand what information you hold, how long you need to retain it, where is it held, who has access to it and how it will be securely disposed of.
- Tools include Privacy-by-Design, Privacy Impact Assessments and Privacy Enhancing Technology.
- A data breach response plan which includes processes and procedures to manage and mitigate a data breach.
- Regular privacy and cyber security training for staff and contractors.

# Privacy by design

Privacy should be considered at all stages of the project, from conception through to the development and implementation phases.

By developing an organisation-wide awareness of privacy, a privacy by design approach shifts the focus to preventing privacy-related issues, rather than simply complying with privacy laws.

#### Privacy and Personal Information Protection Amendment Bill 2022

- The PPIP Amendment Bill passed both houses of NSW Parliament on 16 November and was assented to on 28 November 2022.
- Amendments to come into effect 12 months after assent on 28 November 2023.
- Key changes include:
  - Creation of a Mandatory Notification of Data Breach (MNDB) Scheme in which NSW public sector agencies bound by the PPIP Act will need to notify the Privacy Commissioner and affected individuals of data breaches involving personal or health information likely to result in serious harm
  - applying the PPIP Act to all NSW state-owned corporations that are not regulated by the Commonwealth Privacy Act 1988
  - repealing s117C of the *Fines Act 1996* to ensure that all NSW public sector agencies are regulated by the same mandatory notification scheme.

# Privacy and Personal Information Protection Amendment Bill 2022

#### Preparing your agency for the scheme:

- Establish and clarify roles & responsibilities
- Review and update your Privacy Management Plan
- Prepare and publish a Data Breach Policy
- Review and update relevant policies and procedures
- Establish an incident register
- Establish a public notification register

#### **E-Newsletter**

The IPC is publishing a bi-monthly e-newsletter to update practitioners about new resources and information relating to the MNDB Scheme.

Subscribe for updates via the IPC website.

#### Privacy and Personal Information Protection Amendment Bill 2022

The IPC website has a dedicated MNDB page which will be regularly updated in the lead up to the scheme: <a href="https://www.ipc.nsw.gov.au/privacy/MNDB-scheme">www.ipc.nsw.gov.au/privacy/MNDB-scheme</a>

#### **Upcoming guidance:**

- NEW Fact Sheet for agencies: Exemptions from notification to affected individuals
- Guide to preparing a data breach policy (May 23)
- Fact Sheet for citizens: What is the MNDB Scheme (May 23)
- Fact Sheet for citizens: Your rights under the MNDB Scheme (May 23)
- Guide for agencies: MNDB Scheme (Jun 23)
- Guideline: Assessing an eligible data breach (Aug 23, Minister approval)
- Guideline: Exemption under s 59W (health and safety) (Aug 23, Minister approval)
- Guideline: Exemption under s 59X (cybersecurity) (Aug 23, Minister approval)
